

To Malcolm

From my experience Malcolm MacDonald is the most inspirational healer and teacher that I have ever had the pleasure of meeting.

Malcolm has taught me how to believe in myself and to achieve things in life, I never knew I could.

Gifted with numerous skills, including Numerology, EFT and Hypnosis, it's just the beginning of his repertoire of unique techniques and tools he uses.

Malcolm has giving me the most unbelievable opportunity of my life, for which I am most grateful for and for that alone, I thank him.

However what I consider most incredible about Malcolm's work is his drive and passion for what he does and the gift he passes on to all he comes in contact with.

**I** came to see Malcolm after a very dear friend referred me to him, I had been in a very abusive marriage, which ended when my husband committed suicide, my friend believed that Malcolm would be able to help sort out my mess of a life as it was at that time.

**I** was hesitant in seeing Malcolm, maybe I was fearful of learning about myself, before I saw Malcolm for the first time, I sent my birth date and full name at birth, which on my first visit was all mapped out for me and showed me how I needed to approach the problems in my life.

**Malcolm** and I spent many a week diligently working on my present life blockages, his Respect, Kindness, Loyalty and his Belief in me was what made me believe in myself, Malcolm's restructuring sessions dealt with spiritual life coaching, understanding myself through my numerology with deep hypnosis combined with EFT work.

**With** all of Malcolm's hard work, guidance and support, I can now hold my head up high and not be afraid to learn about myself, I believe that I am a worthwhile person, Malcolm is one the greatest healers I have ever had the privilege of knowing.

Sincerely

I had been wanting to learn Tarot for a number of years and in 2006 I found myself reading a very interesting article in Insight Magazine written by Malcolm MacDonald ( Graywolf ). It was a very down-to-earth article, my attention was captured and I felt compelled to contact this author.

We connected straight away and after many interesting discussions regarding spirituality, the evolution of mankind and many other such topics, I decided that Malcolm has great knowledge, a good heart and lots of integrity. This was the person I wanted to study with.

It was roughly at this time that Malcolm had finished writing his Numerology syllabus and in the process of launching it to the public. [I quickly enrolled as I could see the benefit this tool would have, not only as a personality decoder, but also as a tool to help identify innate strengths and weaknesses a person may be carrying.](#) This creates a fantastic tool in a counselling situation to aid the client identify and capitalize on strengths and also recognize and deal with weaknesses that are interfering with their life.

I have often used the numerology with my clients and have found it incredibly accurate and useful. I have also constructed charts for children to help their parents understand their child and focus their energies in creating a positive and supportive environment for that child.

I feel very blessed to have learnt this system and in particular to have studied with Malcolm. He carries a wealth of knowledge on many topics and his ongoing support is unwavering. He is focused on ensuring you get the best of what he has to offer and is committed to your growth in the process. He has an incredible vision for a better world and believes we all have the power to create happiness for ourselves.

Malcolm is an incredibly accurate Tarot reader, proficient Counsellor, and Spiritual life coach and I thoroughly recommend his services.  
Good luck on your journey and may you find the happiness you rightfully deserve.

I want to thank you both from the bottom of my heart for your Love and support on Saturday.

It was very healing and spiritually cleansing for me to understand the life lesson in a termination, and from a metaphysical perspective.

Now, instead of feeling the immense guilt, grief and pain of my loss, I now feel totally at ease with my decision for the first time.

I can sleep easy now, no more nightmares etc, the hospital counselling just wasn't sufficient enough to carry me through this traumatic experience; however you have given me closure, and peace of mind, thank you.

## Tamworth Testimonials

### Received from Mandy Coles

Malcolm, this lady told me that the money she spent for this weekend workshop was the best investment she had made this year!!!!

**No 1 – Hi Mandy.**

What a

beautiful photo, thank you so much for it I will print it out now and treasure it for the knowledge I received and the work I have to do on “Me, Myself & I”. I will be eternally grateful for what Malcolm has unleashed in me.

Love and light Always.

**No 2 – Hi Mandy.**

Many thanks again for all your hard work in putting together a fabulous weekend course; I really enjoyed getting back into learning again in a field I couldn't access before.

**No 3 – Hi Mandy.**

Thank you for the weekend.

A lot of information that appeared to be tangent came together especially Parental Patterns and Cellular Memory.

I gained an interest in cellular memory from a documentary by two scientists on SBS.

The weekend reinforced my desire to enrol in a course; however I was undecided which one to choose.

After this weekend workshop with Malcolm, this allowed me to confirm that I wish to travel the path of Nutritional medicine.

#### **No 4 – From Mandy Coles.**

Malcolm brings with him his expertise of reading the Ancient Tarot. Those of you who have experienced readings from Malcolm know he works like no other.

## **Testimonial**

The time I spent with my Mentor and Teacher Malcolm Alexander, learning Life Psychology by Numbers, was the most wonderful journey one could be blessed with. Not only did Malcolm share his profound knowledge with and of numbers, but he also willingly shared his soul wisdom.

Malcolm teaches with infectious passion, divine wisdom and love for the work he has produced “*Life Psychology by Numbers*”.

It is a gift that he is choosing to share with those therapists who want to grow and move forward with their chosen professions.

Malcolm teaches with amazing energy and enthusiasm, humour and love... Love for all souls with the understanding to help them help themselves and others.

Life Psychology by Numbers is a step you will embrace and proudly carry with you whilst on this incarnation.

This amazing life tool speaks for itself... There is no hiding... All is revealed... The teacher is the Master.

# Sincerest Thanks

*Before I go any further, I want to say, being Ex Special Forces, I've been privileged to work with the best the military has to offer, however it's not just the armed forces that has some of the best there is, there are some highly trained and very gifted professionals, doing amazing things in the civilian sector, hence why I'm putting pen to paper, credit where credit is due.*

I was Fifteen years a member of the Special Forces, and Five years seeing a psychologist for Post Traumatic Stress Disorder. The nightmares caused me more sleep deprivation than the army ever did. Sleep is something I used to get in dribs and drabs. Anniversaries used to be a real killer for me, at that time my past life was beginning to take its toll on my present day affairs.

Not to mention the difficulty my marriage and home life was in, everything was going down the shithouse S bend faster then I was able to comprehend.

One day my wife heard through a friend of a friend about this man called Malcolm a Spiritual Healer on the Central Coast. Word had it he was doing some every interesting work, and achieving some astonishing results.

I had nothing to lose in seeing Malcolm, yet I was on the brink of losing everything at that time, my marriage, wife and children, as well as my life.

I was in the fight of my life, I was fighting a losing battle with depression; losing was something I was not accustomed to doing.

Depression was an enemy I found extremely difficult to combat, what did I have to lose, I didn't have much to live for.

I was desperate, yet, very sceptical at the same time; psychology wasn't doing me any favours, other than prescribing me pills for this and that.

Pills where not the magic bullet I was looking for, I'd been toying with committing suicide on a daily basis for around twelve months.

Death, divorce and failure were not an option I tucked lightly, they were not part of my *modus operandi*.

For all the members of the general public reading this testimonial for the first time, what it is that Malcolm does is special to say the least.

When he outlined the nature of the approach that he would be taking, including using deep hypnosis regression work, ‘*really, me hypnotised, that’ll be the day*’ the hypnosis side of things was something I was very sceptical of, ‘*I’ve seen too many TV shows of people making dickheads out of themselves*’ yet what he did in hypnosis was utterly amazing.

As for E.F.T, the whole Emotional Freedom Technique experience, this tapping thing left me dumbfounded at that time, how can something so simple do so much.

I’m only now beginning to understand the connection to the Neural Pathways and Neural Receptors and the three Glands of the Inner brain that he talked about, needless to say, this tapping phenomena really does work.

Thanks to Malcolm I’m very much alive and healthy, thankfully, I still have my beautiful, loving, supportive wife and my family, my children have a loving father for the first time in a very long time.

I sleep like a log, pit stops excluded, NO more nightmares, cold sweats, flashbacks or anxiety attacks, I have my sanity restored, I’ve integrated back into society and the work force.

The best part is, there are no more pills, no more alcohol, I’m in control of me, and should anything arise, I now have the skills/tools to deal with it myself.

I tucked Malcolm’s advice and learnt EFT, ‘*these days both my wife and I are practicing E.F.T therapists, what a change from the military*’ we use it on our children, fantastic, finally I found a bullet that destroys Negative Emotions in their tracks as well as many other life ills.

Thank you Malcolm for all and everything you did to me and for me, you are real champion, wear the cufflinks with pride, you earned them brother, for you dared to go where psychology couldn’t or wouldn’t.

**Footnote:**

*The Armed Force needs more skilled professionals like you, there are Souls in this world who are in just as much pain as I was, and in some cases even more so than I was, if there is one thing the Army failed to prepare me for, it was the difficulties of civilian life.*

## To All Who Seek His Skills

If you find yourself reading this testimonial, and you are possibly wondering if you should engage Malcolm's services for one or more personal issues you may have irritating you, or that are stopping your emotional and spiritual development or just your daily progress in life, well let me tell you my story.

I was guided to a psychic fair where I sought out the reader spirit believed was right for me, Malcolm was that reader, not only was he spot on with his reading, but it was at that point that I made my mind up he was the therapist I needed to see in order to set my world straight once and for all.

Wasting no time I booked in to see him within the week, his approach is meticulously thorough, very friendly, yet direct, professionally he leaves nothing to chance and no stone unturned, once he has your Pain pegged, that's when the fun starts, let me tell you.

The past life regression work was interesting to say the least, not to mention the two deep hypnosis sessions to cured me of my fear of driving and to also rid me of my small drinking problem which could have got quite nasty and could even have caused me some real problems in the not two distant future, if it weren't for Malcolm's skills as a healer that is.

If after reading this you are still not convinced you need to see him or that this amazing man can help you in anyway, then you really must be have something wrong with you.
